# Wabo® FingerPlus

EASY-MAINTENANCE FINGER EXPANSION JOINT SYSTEM

## DESCRIPTION

Wabo® FingerPlus patented finger joint system expands the use and application of traditional finger joint technology. Segmental finger construction made in 6' sections is ideal for staged construction and top-of-deck maintenance. Additional Wabo® Easy Clear trough system is available as an add-on.

## APPLICATIONS

- New construction that contains uni-directional movements where finger joint technology is preferred
- Retro-fit applications where shallow blockout geometry exists

## FEATURES/ BENEFITS

- Seal inspection, maintenance and replacement can now be completed from top of deck saving time and money
- More robust and less susceptible to corrosion than typical trough mounting hardware
- Robust design to accommodate high impact and repetitive loading conditions
- Fabricated with downward taper towards end of fingers to make for smooth ride
- Optional Wabo® EasyClear debris removal system available with pitched support plate to facilitate quick flushing and debris removal.
